1. Release Notes Overview

The Release Notes are a comprehensive overview of the new features and functionality added or enhanced as part of MCIX's latest release. These notes are designed to give you all the information you need to immediately understand and start benefitting from the new features.

For each new feature, we give a high-level description of the functionality, and provide a step-by-step walkthrough, along with screenshots of how to start using the feature.

If you would like to learn more about any new feature, please contact the MCIX support team on support@mcixportal.com who will be happy to answer any questions you have.

2. New functionality, enhancements

ThitsaWorks provides financial technology solutions for Microfinance Institutions to collect, manage and analyze data needed to run effective operations and to manage risks. We are passionate about solving complex business and social challenges using data as a tool.

New functionality or enhancements

[MCIX-210] – APIs to accept CSV files for automated data submission from MFI's core banking systems for active and write-off clients is now available

APIs to accept CSV (active and write-off) client files for automated data submission has been implemented and is available for use. With this, MFIs can now submit and retrieve data to and from MCIX via APIs enabling the entire workflow to be fully automated.

[MCIX-217] – MFIs can search for clients in bulk.

“Bulk Search” Module have been added to MCIX enabling MFIs to search many NRCs at once.

The screenshot shows the MCIX 1.8.0 interface. On the left is a navigation menu with 'Bulk Search' highlighted. The main content area is titled 'Search' and contains instructions for uploading files, a file upload section, and a table of NRCs.

Instructions on uploading files

- Please download the template file, populate it with NRCs to be searched and click 'Upload'
- The file must be in Comma Separated Values (CSV) format.
- Maximum of 100 searches per upload.
- NRC can be either full NRC or 6 digits and must be in English.

Download sample csv for Bulk Search **← Download sample CSV to input NRC**

Upload Comma Separated Values (CSV) file:

Choose File No file chosen **← Choose NRC inserted CSV file**

Upload Download result **← Click to download CSV with result**
