Table of Contents

1. Release Notes Overview

The Release Notes are a comprehensive overview of the new features and functionality added or enhanced as part of MCIX's latest release. These notes are designed to give you all the information you need to immediately understand and start benefitting from the new features.

For each new feature, we give a high level description of the functionality, and provide a step-by-step walkthrough, along with screenshots of how to start using the feature.

If you would like to learn more about any new feature, please contact the MCIX support team on support@mcixportal.com who will be happy to answer any questions you have.

2. New functionality, enhancements or bug fixes

ThitsaWorks provides financial technology solutions for Microfinance Institutions to collect, manage and analyze data needed to run effective operations and to manage risks. We are passionate about solving complex business and social challenges using data as a tool.

[MCIX-119] – Create conversion of NRCs in Myanmar to NRCs in English

In response to MFIs whose systems only store NRCs in Myanmar, a new functionality has been added to MCIX to automatically translate NRCs in Myanmar to NRCs in English during the uploading process. MFIs can now upload NRCs written in Myanmar3 (Myanmar Unicode font) into MCIX and the system will display the NRCs in English.
